

PEACOC™ Connector Label Clip

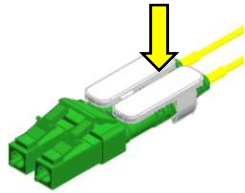

Description:

The Go!Foton PEACOC™ Connector Label Clip provides cable labeling and port identification for high density applications like cassettes and patch panels. The clips have a built-in locking mechanism that can be attached to standard boot sizes. PEACOC Connector Label Clips come in attached pairs which can be fastened on duplex connectors or can be easily be separated for simplex connectors.

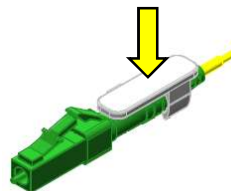

Installation Guidelines:

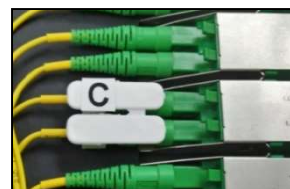

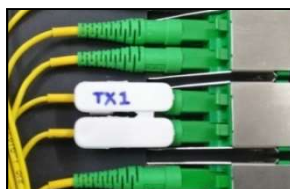

FOR DUPLEX CONNECTORS (LC) – Press on connector label clips securely to boot to attach them to duplex connectors.

FOR SIMPLEX CONNECTORS (LC/SC) – Separate the label clips when applying them to simplex connectors and attach.

PORT/CONNECTOR ID – Place necessary labels on the clips. Labels may be handwritten or attached using a sticker.

Applications:

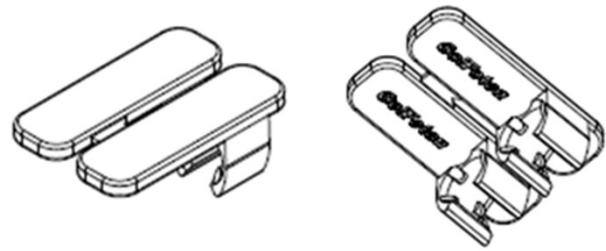

- LC Duplex/Simplex Connectors
- SC Simplex Connectors

Product and Design Features:

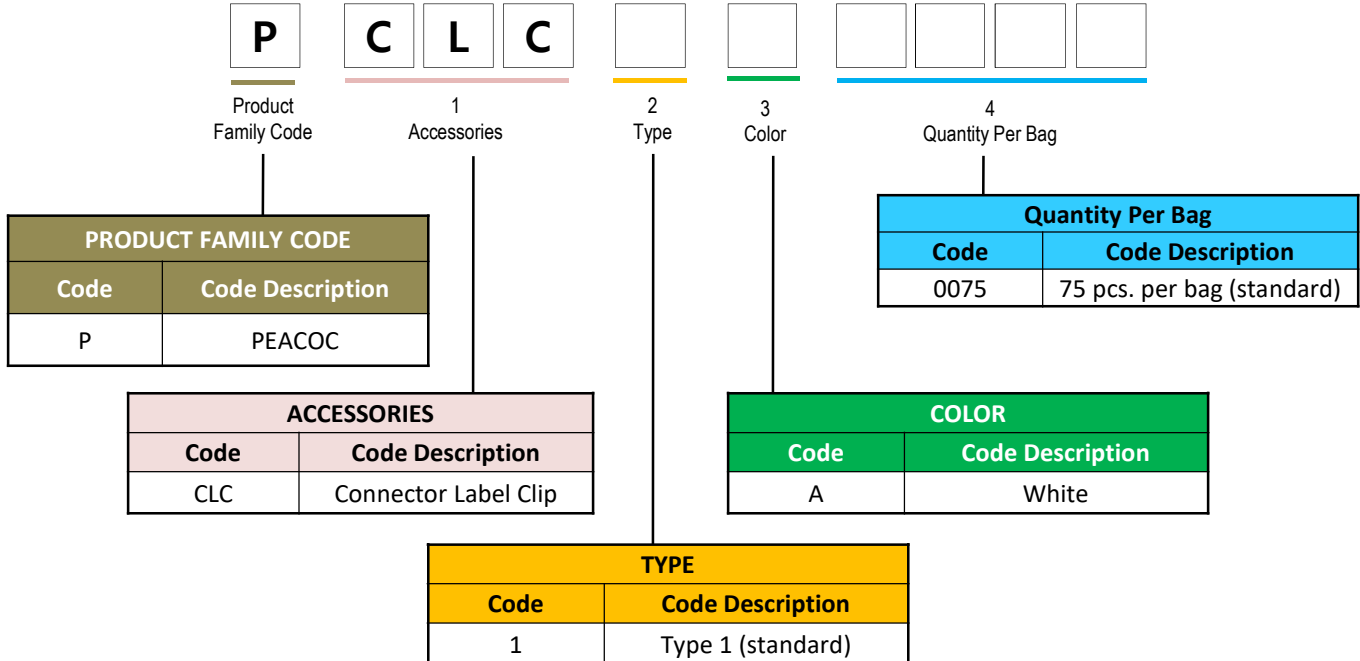

- Ideal for high density applications
- Detachable and interchangeable clips
- Accommodates both handwritten and sticker labels
- Flexible for many standard boot sizes
- Built-in locking mechanism
- Separable for simplex connectors

Specifications:

Parameter	Specification
Dimensions	20mm x 13.4mm
Standard Color	White
Material	Nylon 6/6
Flammability Rating	UL94V0
RoHS Compliance	✓

Ordering Guide:

Example Order Code:

PCLC1A0075 → (PEACOC Connector Label Clip, Type 1, White, 75 pcs. per bag)
